LANDIS EXONERATES ACCUSED PLAYERS

LANDIS BLOWS AWAY THE
BREATH OF SCANDAL

Guards Rescue Crew Off Provincetown

INSTRUCTOR STABBED

JUDGE LANDIS

The fear of baseball has created the "scandal" fund raised by the White Sox in 1917 was not paid to Detroit for sloughing the series in Chicago, but because Detroit took a series from Boston; therefore, all players in

EDDIE COLLINS

would be found not guilty. Further, he says there was no sloughing, anyway, unless Risberg and Gandil did a bit of their own. Risberg is the man who brought the charges that led to the scandal probe.

HOWARD EMMKE

"SWED" RISBERG

COBBLER IS UNDER ARREST

A store and sidewalk battle that began in an argument over a pair of shoes, sent Instructor Thurman Hood, Ph.D., of Harvard University, to the Cambridge Hospital today, stabbed in the head.
Vincent DeLuca, 53, cobbler, Place Turn to Page 3, Column 2.

700 Tons of Salt At \$6,500 Kept "El" Switches Open

Approximately 700 tons of salt, at a cost of more than \$6,500, were used by the Boston Elevated to keep street switches cleared during the storm.
Three "salt cars" were constantly at work, and as a result there were no delays due to clogged and frozen switches.
This storm weapon, although ill-begotten to the public, is an important one to the "B.E." which uses about 4,000 tons of salt a year. The cost, according to officials, is \$9.50 a ton.

BA SEBALL STARS ARE CLEARED

Chicago, Jan. 12.—Commissioner Landis today joined the chorus of 36 baseball players in branding it "an absolute lie" the charges made by Swede Risberg and Chick Gandil that the Detroit Tigers sloughed a four-game series to the White Sox in 1917 so that the White Sox could beat Boston out in the American League race.
The commissioner completely exonerated all the accused players, and decided that the "gift fund" of \$850 raised by the White Sox to reward the Tiger pitchers was not corrupt. He declared it was an act of impropriety, reprehensible and censurable, but not an act of criminality.

\$29,000,000 MADE FROM \$900 IN FORD STOCK

Detroit, Jan. 12 (U.P.).—The story of Senator James Couzens' fortune which jumped from \$900 to more than \$29,000,000 in thirteen years was told today at the governor's \$14,000,000 tax suit against former stockholders of the Ford Motor Company.
A stipulation signed by Couzens and paid at the hearing by the secretary of the Ford Motor Company at the time of his organization in June, 1903, his borrowed \$100 of this from his sister, Mrs.

It said Risberg and Gandil had only incriminated themselves, but being already on the witness stand their story could not hurt them. He said that their story does not blot the "gift" money.
Commissioner Landis in his decision gives force to the story told by Bill James, the former "Baseball Commissioner" who was paid as a bribe for three games played in a crucial season beating Boston in a crucial season in 1917.
That hearing helped the White Sox in winning the pennant, and the stories of the thirty-third accused players were that the money was paid only as a present for good work against the Red Sox.
Commissioner Landis completely exonerated the deal, but the decision failed to restore the ball players' faith.

H.C.L. DROPS 31-2 P.C.; TENANTS PROTECTED

The fact that living costs dropped three and one-half per cent, in 1926 and recommendations favoring tenants were revealed today by the State Commission on the Necessities of Life in its annual report to the Legislature.
Improvement in the housing situation, the commission says, warrants amending the minimum thirty-day notice to tenants not in arrears of rent, so that the length of the notice will correspond to the rental period. Thus amended, the commission urged that it be made permanent.
Another emergency rent law, protecting tenants whose rent is paid from being evicted after a forty-day period, was also recommended.

Eight escape when farm buildings burn
Stratham, N. H., Jan. 11 (A.P.).—Eight persons narrowly escaped to day when a fire swept the farm buildings of Mr. and Mrs. Percy Wells. Two automobiles, trunks, three horses and a large quantity of hay were destroyed.

COOLIDGE ASKS \$4,495,000 FOR PLANES
Washington, Jan. 12 (A.P.).—Without making any detailed explanation, President Coolidge today asked Congress for a supplemental appropriation of \$4,495,000 to purchase new airplanes and equipment. The President suggested that the money be spent before July 1, 1929, and requested legislation which would permit the chief of air corps to contract for obligations which would use the entire amount.

Good and Bad Pictures That Sing Flu and Earthquake Biggest Bank
Copyright, 1927, by Star Co.

SOME of the news is bad, some good.
There is a plague of influenza sweeping Europe, not quite, but nearly as bad as the original attack that killed millions just after the war. In Spain alone 200,000 are ill. France and Switzerland are hit by the epidemic. Big American cities would do well to segregate severe influenza cases. New York City's health department has set the example.

MEXICO'S ACTION, exulting Monsignor Diaz, spokesman of the Catholic Church, and arresting several bishops, forty Catholic officials in all, has evoked a storm of protest from the Mexican people, intensely religious and devoutly Catholic, to a white heat of indignation.

THE RELIGIOUS war in Mexico grows more serious. Reports from Mexico City tell of thousands killed in battle. The Mayor and other officials are a white heat of indignation. The Mayor and other officials are a white heat of indignation.

KELLOGG CHARGES PLOT IN MEXICO AGAINST U.S.

Mexico City, Jan. 12 (U.P.).—An array of additional protests in Durango for alleged "murder" in the Indian uprising there were announced today when twenty arrived here under escort and were held. By military authorities.

Mexico City, Jan. 12 (A.P.).—The Mexican Catholic Episcopate is accused of responsibility for recent Catholic uprisings in Mexico under the banner, "Long Live Christ the King," in a statement issued today by the office of President C. Calles.
The statement declares that the Mexican government has confirmed that the rebels are acting under specific instructions from the episcopate and that orders have been issued to punish unconditionally clergy who fail to testify to rebellion.
The Catholic Episcopate of Mexico City with the knowledge that the

Freighter Pomham, ashore on Rhode Island Reef, Narragansett Bay. The ship was driven in by the big storm. The crew remained aboard, though a great hole was battered in the side of the craft when she grounded. Coast guards tried in vain to reach her side for several hours. Finally the ship was refloated.

HAYS AND CHAPLIN TO HAVE SECRET PARLEY

New York, Jan. 12 (U.P.).—Will Hays, generalissimo of the movie, today was reported in well-formed circles to be on his way West to confer with Charles Chaplin in a secret meeting. It was said he would "talk to the bottom" of the charges made by Mrs. Edna Gove Chaplin, the comedian's wife, as he sat for divorce, pending which she had tied up her husband's \$100,000,000 estate.
One report said Hays was en route to New Orleans, where he was expected to arrive this afternoon. It was stated he would either meet Chaplin there or talk on him over the long-distance telephone.
Censorship reports stating the comedian's whereabouts were believed to indicate he had arranged to see his active story before Hays, a secret source of information.

DARING RESCUE MADE OF FISHERMAN'S CREW

In a daring rescue off Provincetown, a coast guard cutter today saved a crew of fishermen from a schooner battered and disabled by the furious blizzard.
The bare announcement of the rescue, which was ordered from rescues yesterday for property of the

DEATH PENALTY FOR ALL REBELLING AGAINST CALLES

EARLY 100 SLAIN IN BATTLES

Continued from First Page.

International relations with the United States would be severely damaged or unfavorably modified beginning January 1, showing that they still are traitors to the country," ordered the Catholic clergy to induce the largest possible number of men to revolt against the Mexican government, the statement said.

Reviewing "Catholic rebellious activities" after January 1, the statement declares that the clergy's efforts have failed except in a few States.

"The Federal government, the statement continues, is convinced that the rebels are acting under specific instructions from the Episcopate and has issued orders to punish energetically any clergyman guilty of failing to join the latter before responsible of the uprising, although they lack military ability.

"It is dangerous to be forced to sacrifice the lives of these men who, through the hierarchy, follow blindly the hierarchy's instructions," the statement says.

The statement charges that the clergy's activities resulted in revolt in six different states and in the death of 14 Federal soldiers and 10 Catholic insurgents. In one case a letter and a copy of the statement were sent to Benito Carrasco, reported provincial president of a revolutionary army, and a report was found on the body of a rebel.

A summary of the Catholic uprising, as contained in the statement, follows:

SUMMARIZED REVOLTS.

State of Guanajuato: The Catholic priest, Ignacio and Pedro Gonzalez, heading a group revolted near Leon. Federal soldiers killed eleven rebels who fled into the state of Jalisco where they were again defeated at San Diego and again with the death of eleven additional rebels. Two hundred men, belonging to the state troops and commanded by Ignacio Montoya, also revolted at Apasco. In Alto, twenty-two rebels were killed, including Montoya, in the first clash with Federal troops.

State of Chihuahua: The only rebel band operating here was headed by Nicolas Fernandez. The Federal killed four rebels in a clash at Arroyo Reforma.

The Federal district A week ago 100 men among whom were several youths from Mexico City, rose under orders from Zapata, General Reyes and Luis Castro. Federal troops killed Castro and fourteen others in a fight at Teul. Military Commandant Macias reports that a letter signed by Rene Capitain Garza was found upon Castro's body and that eleven rebels, who gave themselves up after the defeat, claimed they had been deceived into the rebellion by Catholic priests.

Bishop Pascual Diaz of Toluca, who was arrested on Monday morning, apparently has vanished.

All traces of him have been lost since he was taken by the police to the Department of the Interior on Monday morning, but the fact that he sent home later for a suit case has confirmed the belief that he is being tortured.

GEN. SANCHEZ KILLED.

The state of Jalisco: Two hundred rebels commanded by Horacio Sanchez defeated a Federal force commanded by General Arreola and Colton, two officers and eight soldiers being killed. General Arreola, one colonel and thirteen soldiers be-

36 Little Fire Victims In Montreal Paid Tribute of Tears

SORROWING THROG JAMS CHURCH AT FUNERAL OF CHILDREN KILLED IN THEATRE HORROR

Over thirty-six little white caskets solemn and impressive services were held in the French Catholic church, Montreal, for the little victims of the Laurier Theatre fire, which took a toll of 77 lives. The caskets were arranged in front of the altar, staid, grim-faced members of the Montreal Constabulary acting as a guard of honor. While the funeral mass was being said the great bell, "Le Gros Bourbon," atop the church tolled a slow and sorrowful tribute to the dead. Pathetic scenes marked the joint funeral as weeping men and women—parents of the little victims—paid a last farewell to the little ones death struck down in the midst of their very laughter. The second group of the victims—41 more little caskets—were taken into the church today for another joint funeral. The tragedy has cast a pall of gloom over the entire French district—home of nearly every child who perished in the fire.

PLOT CHARGED TO MEXICANS BY KELLOGG

movement on a scale of the whole American continent, embracing the workers of all countries of Latin America and the revolutionary forces of the United States.

"The attack is the natural connecting link between the movement of the United States of North America and Latin America, the cited revolution continued, "therefore, Mexico is the center of the union."

"The preparation of Communist ideas and principles in the various countries of Latin America," Secretary Kellogg said, "is considered secondary to the carrying of propaganda against the aims and policies of the United States."

"The Latin American and Mexico are conceived as a base for activity against the United States. Communists in the United States have been repeatedly instructed to devote special attention to the struggle against 'American imperialism' in Latin America and to the organization of resistance to the United States."

"The Secretary quoted an extract from a report by Nicholas, foreign secretary of the Soviet government, saying that 'Mexico gives us a very convenient political base in America for the development of our further line.'"

The report, made at the third session of the United Nations Committee in March, 1931, was quoted as follows:

"In America, in this manner we still stand before a question mark. We have succeeded in re-establishing diplomatic relations, which are a very convenient political base in America for the development of our further line."

"The Soviet Republic is extraordinarily popular in Mexico and America gives us, thus, a very convenient political base in America for the development of our further line."

BOW-WOW! STOP!

**FOOT TRAFFIC CROSS
ON RED & YELLOW LIGHTS**

PROUD OF HIS JOB

Siray dog, secured by traffic officer at the corner of Washington and Summer streets barked his directions to the lines of autos, much to the amusement of the shopping crowds. The Animal Rescue League later took care of him.

**PEACHES FEARS
HER BAD DADDY.**

**NOT DIGGING
GOLD, SAYS
HER 'MA'**

By JAMES L. KIGALEN.
Copyright, 1927, by International News Service.
New York, Jan. 12.—"Peaches" Browning still loves her elderly military husband, Edward W. "Daddy" Browning, but she'll never go back to him, her mother, Mrs. Carolyn Chubb-Browning Heman, declared in an exclusive interview today.
"She is afraid of him," said Mrs. Heman. "Why, he used to sleep with a gun at the side of his bed and act so strangely. She was an innocent child when she married Browning. But when she left him she was a physical wreck."
It was this first interview granted by Mrs. Heman since she and "Peaches" suddenly and dramatically pulled up last fall at New Garden Inn, the honeymoon resort of the Brownings, and left her to scoff at Browning.
Mrs. Heman and "Peaches" since have been in mediation in their fatherly dispute over the apartment and the future of the Brownings, and left her to scoff at Browning.

BUILT TO HIDE NEIGHBORS

BOSTON AMERICAN

BOSTON, WEDNESDAY, JANUARY 12, 1927

**BLAZE TIES UP
TRAFFIC IN
BROOKLINE**

Several firemen were cut by flying glass and steam railroad, trolley and bus schedules were tied in a knot for half to three-quarters of an hour today by a stubborn fire in the two-story brick building at No. 61 Boylston street, Brookline.
Fireman Peter McMahon was compelled to raise up the railroad track and flag a train bound from Riverside to Boston to prevent it from running over the hose.
The building, occupied by the Patent Sign Shop, contained paints and oils on which the flames fed greedily, eating quickly from the first floor up into the second.
Chestnut Hill cars, bound to and from Boston, as well as the Boston & Worcester trolleys and the Boston & Worcester buses, were held up for more than half an hour and other traffic was forced to detour.
The loss was \$5,000.

ENTERED FOR GOLF PRIZE

PLAYERS FROM HUB

Mrs. J. A. Travers and Mrs. C. A. Hender of Boston are seen watching the St. Augustine golf tourney, in which they will take part. It is the Winter golf league of advertising interests.

**GENERAL
NEWS SECTION**

**SPITE FENCE IS
ORDERED DOWN
BY COURT**

The "spite fence" that has attracted attention for months in Washington street, Jamaica Plain, not far from Forest Hills, was ordered taken down today by Judge Cox in the equity division of Superior Court.
"If that isn't a spite fence, then I never saw one," said Judge Cox. "It is erected on property adjoining yours or mine, I think we'd be likely to take an ax and chop it down."
He ordered Mrs. Rose Salvi to remove the fence which, 12 feet in height and 45 feet long, separates her property from that of Carmelo Sicari.
The fence was erected last Spring. Sicari protested and the Salvi replied that it was put up to hide the other family from their view and to prevent rubbish being dumped in the Salvi driveway. The rough wooden fence-posts were placed on the side toward the Sicari house.

**JUDGE BURKE LEAVES
ESTATE TO CHILDREN**

The will of Judge John H. Burke of Brookline, formerly of the Manhattan court of Boston, filed today in Norfolk Probate Court at Dedham, leaves his entire estate, both real and personal, to his three children.
The three children, who will share alike the estate, the amount of which was not made public, are Mrs. Madeline Menger of St. Louis, Edmund Burke of Minneapolis and Mrs. Pauline Carey of Brooklyn.
Judge Michael J. Murray of the Boston Municipal Court was nominated as executor.

DOG ROUTS BURGLARS

Topo, a valuable shepherd police dog, put two burglars to rout when they attempted to enter the home of Mrs. J. F. Pierce, of New Bedford. Police are now combing the district for the pair.

**SALEM MAYOR ASKS FOR
\$2,000 TO HELP LEGION**

Authority for Salem to appropriate \$2,000 to help defray expenses of the American Legion at its last state convention in that city was urged by Mayor George H. Bates at a hearing held at the state house.
The bill was characterized as "unusual" because it would create a precedent by allowing a municipal appropriation to help cover expenses of a private organization already established.

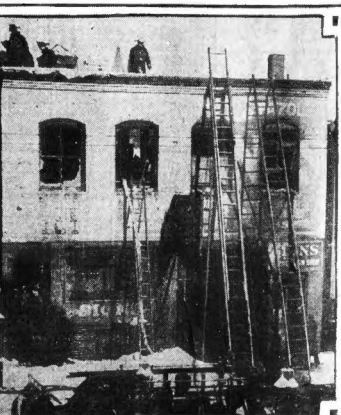

**GUARDIANS NAMED FOR
SAYLES ESTATE HEIRS**

Fawcett, R. I., Jan. 12 (U. P.).—In Fawcett probate court today, Elisha Mowry, Providence, was appointed guardian for Hope Sayles, minor daughter of the late Frank A. Sayles, millionaire textile man. John C. Knowles, Providence, was named guardian for Paul Nicholas, Jr., Mary Boyle Barker and Martha Sayles Nelson, grandchildren of the late Mr. Sayles.

Value of Your Dollar

From 1913 to Date

PURCHASING POWER AS GIVEN IN REPORT OF MASSACHUSETTS COMMISSION ON NECESSARIES OF LIFE

What your dollar has been buying over the range of years since 1913 is shown in the nine shaded circles of the strip above. It's lowest purchasing power was in 1920, when for one dollar you could purchase commodities that in the normal or basic year of 1913 cost you only fifty cents. Jumping an additional value of 12 cents in 1921, the dollar's purchasing power went up two cents more in 1922 to 64 cents, then slid off to 61 cents in 1923—and at present the dollar purchases only 62 cents worth of what it would buy 13 years ago. In the chart above are indicated the advances in costs of various commodities, based on costs in 1913.

HOUSE BURNS AS DRIFTS BAR WAY

The snow drifts along a three-mile stretch of road prevented the Canton Fire Department from arriving in time to save the house, barn and garage of Oscar J. May on York street, which were destroyed by flames today with an estimated loss of \$10,000.

Cracked by the smoke, May awoke to find his barn and garage roaring, and that his house was burning. He awoke his wife and both fled without attempt to dress. Two horses and four cows in the barn were suffocated. In the garage were three automobiles which were destroyed.

Although the alarm was received at the Central Fire Station, the department found the road almost impassable. Some of the drifts were five feet deep and a path had to be broken for the apparatus. The May house was one of the oldest in town.

Beards Coming Back! Men Demand 'Em in Self-Defense

London, Jan. 12 (A.P.)—Whiskers and moustaches are coming back. Barbers say. Imitations of men's styles and habits by women is given as the direct cause by those now engaged in raising hirsute advertisements.

With women copying men's fashions in haircuts, dress and smoking, proponents of the beard say it stands out more than ever as a badge of masculinity, and the vogue of the clean-shaven man is on the decline.

LISBON IS ROCKED BY RUMBLING QUAKE

Lisbon, Portugal, Jan. 12 (A.P.)—An earthquake, accompanied by rumbling, was felt throughout Lisbon at 3 o'clock today. No casualties or damage were reported.

Manila, Jan. 12—An earthquake which rocked Manila began at 1:05 o'clock this morning and lasted eight minutes. The walls of the building housing the American School were cracked.

COST OF LIVING DROPS 3 1/2 P. C.

Continued from First Page.

Eight-hour notice, was recommended extended. Permanent also, the commission recommended, should be made the law protecting tenants who contract for heat.

The Commission report recommended a number of changes in law in the event that it grew out of existence next May, as a former president of the Massachusetts Real Estate Exchange has petitioned for.

PAYING FOR COAL STRIKE. Declaring that Massachusetts coal consumers are paying for the anthracite strike, the Commission recommended the use of substitute fuel to lower the "excessive high price of anthracite which can and ought to be reduced."

The drop in living cost, according to the report, was mainly in food, although it still takes \$122.50 to purchase the same amount of commodities that \$100 bought in 1913.

In charts it prepared, the Commission indicated that the lowest purchasing power of the dollar since 1913 was in 1920 when for \$1 you could buy commodities that in the basic pre-war year could be obtained for only 60 cents.

Jumping 12 cents more in 1921, the dollar's purchasing power advanced for a fourth of a year, to 64 cents, in 1922, then slid off to 61 cents in 1923. Today's purchasing power of the dollar is 62 cents.

The chart on coal advances, based on 1913, showed clothing hitting the highest peak of any, soaring to 210 in April, 1926, over the normal 100 in 1913. By the end of 1926, clothing prices had slumped to 220 and now are at 180.

HIGHEST POINTS. Food touched its peak in July, 1920, at 215, went back to 176 in June, 1921, and now is at 155. January, 1926, saw fuel highest at 210, the next highest being registered in the Winter of 1920-21, at 120.

Shelter was at 173 in the last three months of 1924 and first half of 1925, and now stands at 162. General living cost rose to 202 in the summer of 1920, fell to 155 in 1922 and now is at 122.

Hard coal consumers in Massachusetts, to the tune of from 50 cents to \$1 a ton, are paying the \$155,000, 200 coal strike cost of last Winter, the commission informed the Legislator.

In the settlement of the strike, the commission declared, not a cent was added to the wages of the miners and no increase took place in the cost of transportation.

"Yet the price of anthracite at the mine and to the consumer advanced from 50 cents to \$1 a ton," the report pointed out.

Despite agreements by miners and operators as to wages and conditions in bituminous and anthracite regions, the commission warned that "no opportunity of obtaining a source of fuel and power over which the Commonwealth will have complete control should be overlooked."

Announcement of a special commission of three, with representation of \$100,000,000, was urged, to ascertain for bituminous and anthracite fields the extent, quality and availability of the deposits.

BAY STATE HANDS U. S. \$118,000,000 TAXES

How more than \$118,000,000 was handed to Uncle Sam for Federal purposes for 1926.

Included in the new edition of the Massachusetts tax laws, the annual report of the committee on taxation of the Boston Chamber of Commerce.

In addition to the contribution to the Federal government, the State raised \$202,000,000 for municipal purposes. The county purposes received more than \$1,000,000, making a total of more than \$241,000,000 that was raised. The total of the money raised by the State for the above named purposes, shows a reduction of \$1,000,000 compared to the year 1924.

Patrolman Dropped

Patrolman Michael F. Mahoney of the Dudley street station, found guilty of charges of unbecoming conduct by a trial board of captains, was dismissed from the police department, Commissioner Wilson announced.

SON OF BRITISH PEER FOUND AND ARRESTED

Lisbon, Jan. 11.—The Hon. Lawrence P. Smith, son and heir of Lord St. Alden, who was reported missing two weeks ago, has been arrested on a warrant. The police refused to divulge the charges.

Do not miss these bargains late not advertised—All orders

NICHOLS TURNS GUNS ON FIN. COM. EXPERT

Mayor Nichols today asked the Finance Commission with some of its own grape shot, declaring that its engineers were apparently willing to be paid twice by the city for work done in connection with the paving contract investigation in 1925.

He notified the city auditor to suspend payment of a bill for \$244,415 submitted by the engineer, Gay C. Emerson, and sent the bill to the Finance Commission with a series of test questions.

"The bill was forwarded to the city by the Superior Criminal Court which had received it from Emerson who did the work in question under the direction of District Attorney O'Brien.

Emerson's services in the investigation were quoted at a rate of \$10 an hour, and Mayor Nichols pointed out to the Finance Commission that he had paid a regular salary of \$4,000 a year by the city engineer of the commission.

"If this bill is paid, will not Mr. Emerson have been paid twice for the same work which has fallen within the scope of his employment by you? Should not the Finance Commission provide whatever information may be necessary to the district attorney without a further charge for his services?"

"The City of Boston pays all the bills for the commission and the rate of \$10 per hour as the employee of the city."

"Is Mr. Emerson's employment in this dual capacity consistent with the high standard of excellence which ought to be maintained in city and country affairs?"

Angry? Well, You Are Too Full of Phosphorus!

Chicago, Jan. 12.—If a person is to be the same thing that makes a match hot, Mr. Gilbert J. Rich of the University of Chicago finds that the blood of good natured people contains less phosphorus than that of others.

An hour, and Mayor Nichols pointed out to the Finance Commission that he had paid a regular salary of \$4,000 a year by the city engineer of the commission.

"The bill as drawn by Mr. Emerson does not contain the full information that the auditor ought to have, as I feel you will agree," he wrote.

"If this bill is paid, will not Mr. Emerson have been paid twice for the same work which has fallen within the scope of his employment by you? Should not the Finance Commission provide whatever information may be necessary to the district attorney without a further charge for his services?"

"The City of Boston pays all the bills for the commission and the rate of \$10 per hour as the employee of the city."

"Is Mr. Emerson's employment in this dual capacity consistent with the high standard of excellence which ought to be maintained in city and country affairs?"

MAHONEY STIRS U. S. TO AVERT 'CROOKS' PUT OUT OF COURT

Precautions against the coming of the great influenza from European ports were taken today by the U. S. health commissioner, Dr. Francis X. Mahoney.

A thorough examination of all passengers from European ports where it is said influenza has reached epidemic stages, will be made by city health officials in conjunction with the United States immigration service.

Thousands of persons in Boston are today suffering from colds and influenza, explained Dr. Mahoney.

"Since the first day of January there have been only about 100 cases of influenza reported to the health department," he said.

"It was Dr. Mahoney who actually started the United States Public Health Service into action because of information received from official sources that influenza was epidemic in Barcelona, Madrid, Geneva, Berlin, parts of England and Southern France."

Dr. Mahoney sent the following telegram to Surgeon-General Cummings at Washington:

"There is nothing of interest in the present influenza epidemic in the United States, but it is of interest to the city of Boston and its people as well as to the country."

The following report was received from Dr. F. X. Mahoney, Health Commissioner:

"The information in reference to the influenza epidemic in the United States, but it is of interest to the city of Boston and its people as well as to the country."

MAHONEY SHOUTS 'CROOKS' PUT OUT OF COURT

For the first time in 30 years a woman was elected from a Suffolk Superior Courtroom today when a case involving James J. Gordon and the wrecked Eagle Investment Association was interrupted by a shrill cry.

"Don't believe a word they say, they're a parcel of crooks!"

Deputy Sheriff John Patterson found the woman who cried out and led her from the room, while murmurs of applause, apparently for the officer, rose from the spectators.

Gordon, once president of the association, was brought in as a witness in the proceedings brought by Mrs. Mary Fisher, as receiver for the association, to reach certain mortgages standing in alleged fictitious names and apply them for the benefit of creditors.

Judge Merritt ordered a decree in the receiver's favor. Gordon, who is in all because of inability to put up the cash call on an indictment charging him with larceny and forgery, was taken back to his cell.

Show Winter Sport Films

Will have the thrill of winter sports and the beauty of an outdoor scene shown at the City Hall from 7 to 9 o'clock.

The following report was received from Dr. F. X. Mahoney, Health Commissioner:

"The information in reference to the influenza epidemic in the United States, but it is of interest to the city of Boston and its people as well as to the country."

The following report was received from Dr. F. X. Mahoney, Health Commissioner:

CLEARING THE ICE
Miss Sears giving Miss Stearns a ride on the snow shovel.

BETTY ALDEN'S COMMENT ON SOCIETY HAPPENINGS

THE TURN OF THE DEBUTANTE PINWHEEL BRINGS up in its dizzy round Mrs. Ota Kimball's dance for her granddaughter, Miss Helen Hart Mason, this evening, and the dance at the Country Club in Brookline Mr. and Mrs. Robert S. Weeks give on Thursday for their bud, Miss Katherine Weeks. Minor notes in the debutante theme are sounded by smaller affairs as, for instance, Mrs. Manning Emory's dinner dance and Miss Annie Endicott Nourse's luncheon. The Emory dinner dance is for Miss Minna Lindsay and Miss Eleanor Clarke.

MISS DOROTHY QUINCY NOURSE, daughter of the Frederick Russell Nourse, is the bud for whom Miss Nourse entertains. Mrs. Kimball's festivity is at the Somerset, and there's a preliminary supper's dinner for a half-dozen young people. Miss Mason is the slender and blonde daughter of Mr. and Mrs. Henry Lowell Mason, and between North Shore Summers and provisional Junior League membership, she is identified with a wide and important circle. Miss West Hallowell is in the provisional Junior League, with all that such selection implies in the scheme of debutante procedure.

MR. RICHARD PLATT, in announcing his series of late season musicals brings unalloyed pleasure to the small and courted circle that each season is bidden to his pleasant Lime street home for music and tea. It is thus that Mr. Platt serves to introduce to favor may a fledgling musician, a pianist, perhaps, a singer or violinist. Artists already notable in their chosen fields appear also and at least once in the season Mr. Platt himself may grace the program which, of course, runs the "afternoon" red lettered for his many friends.

THE TRANS-ATLANTIC EXODUS has caught up in its wide-sweeping wake the Charles Van B. Cushman family of Pomfret Centre, Ct. who have embarked with a retinue of family servants and cars and intend to do a deal of traveling about the Continent by motor. Mr. Cushman's head groom also is so, so it may be that another thoroughbred racer or hunter from some foreign stable may be added to the Cushman string of blue-ribbons. The Cushman hunters are proverbial winners, making a specially winning appearance in busy teams classes of three at many local shows and capturing countless trophies for the Cushman collection.

QUITE OVERPOWERINGLY Social Register is the roll of assent to the tip and the and indeed little ones may be made whole again, via the excellent works of the infants and children's hospitals. Saturday night will have important set serving tea under Mrs. Philip Sears' direction with Miss Alice Sargent, Mrs. Robert H. Stevenson, Jr., and Mrs. Francis Bacon Lathrop attending.

MRS. FRANCIS BACON LATHROP is hostess for Tuesday at "Titania's Palace." Mrs. Richard Saltonstall for today week and Madames Robert R. Ames, Sidney Stone and Donald Watson for Thursday, January 20, indicating that a smart attendance is in order for these days. Really the whole smart set is more than ordinarily interested, first because it is back of the two hospital heart and soul, and secondly because the Palace is that very cozy thing, a genuine novelty, to set before the public. Not once in a blue moon is a philanthropic scheme so temptingly served up "for the benefit of" yet charity.

PRETTY GIRLS as waitresses will adorn the smart areas though they may take their tea-table duties more or less lightly. Such acknowledged belles as Miss Mary Anne, Miss Mabel Bayard

EDITOR VILLARD WILL ADDRESS TECH MEN

Oswald Garrison Villard, editor of "The Nation," will be the speaker at the annual banquet of "The Tech," student paper at Technological, next Wednesday evening at the Hotel Lenox. The speaker is expected to be in order for these days. Really the whole smart set is more than ordinarily interested, first because it is back of the two hospital heart and soul, and secondly because the Palace is that very cozy thing, a genuine novelty, to set before the public. Not once in a blue moon is a philanthropic scheme so temptingly served up "for the benefit of" yet charity.

2,368 Dead From Flu
Tokyo, Jan. 12 (A.P.)—A total of 698 persons, mostly children, have died in Tokyo in the last ten days in the epidemic of influenza which is sweeping Japan. Since the November there have been 2,368 deaths attributed to the disease.

MAYOR AND WIFE AT BURKE RITES

With Mayor and Mrs. Malcolm E. Nichols and the former's brother, Nathaniel F. F. Nichols, as mourners, funeral services for Mrs. Annie E. Burke, mother of the late Joseph C. Burke, former Boston Evening American reporter, were conducted today in Winthrop.

Mrs. Burke was the mother-in-law of "Doc" Nichols, an official of the Internal Revenue Department at Boston, and was for half a century a resident of the Roxbury Crossing section.

She died Sunday at the home of her daughter and son-in-law, Dr. 28 Underhill street, Winthrop. Her services were in the Church of the Evangelist, with the Rev. James G. Keilaker officiating, and with a large delegation of Roxbury and Greater Boston friends, including Thomas J. Hurley, chairman of the Boston Board of Street Commissioners, attending.

The pall bearers were C. Joseph Harvey, John Lennihan, Henry L. Tully, George Hawley, Lewis Doyle and Philip Kearney.

Burial was in St. Benedict Cemetery, West Roxbury.

Tufts Club to Banquet

The Boston Tufts Club will hold its annual banquet at the New Yorker city Thursday night. The dinner will be a testimonial to Dean Anthony of the Engineering School of the college, whose resignation was announced last commencement.

'Topsy' Pupils SUSPENDED AT WHITMAN

Whitman, Jan. 12.—Four high school boys are under two weeks' suspension from classes at the school here for a party conducted by the athletic association, according to statements made today by attorneys.

The case is said to be similar to that in Brockton where four high school students were disciplined for having attended a senior social after midnight hours.

The local students will fight for reinstatement and may present their case at a meeting of the School Committee, it was declared by Attorney William J. Cowlish of Abington, who represents them. They are said to have attended a "senior" school, but were refused admission.

HIGHWAY PLAN SAVES HISTORIC CONCORD WALLS

Preservation of stone walls and other historic landmarks on the route over which the British troops retreated in Lexington and Lincoln, through a widened State highway, is positively assured. Associate Commissioner of Public Works Richard K. Hale today told a committee of the Legislature that the State did not favor a bill which would have prohibited the building of a new highway through the walls and other landmarks which preserve the historic scene.

ASKS FOR CHANGES IN REDISTRICTING LAW

To prevent a repetition of the redistricting scandal prior to the last election, Representative McLaughlin today urged changes in the constitution at a hearing before the legislative committee on constitutional law.

Under one bill, Hale would have redistricting done by a special commission consisting of the chairman of the supreme court, the president of the senate, the speaker of the house, and two members appointed by the Governor. The redistricting, Hale said, would be arranged that it would not be done at the last minute before a primary or an election.

"KING DAVID" BAILED IN \$40,000 ON GIRLS' CHARGES

Boston Harbor, Mass., Jan. 12 (R.A.).—"King" Benjamin F. Farnell, leader of the House of David, was bound over to the Federal court of Circuit Court here today on serious charges preferred by Gladys Shamford Rubel and Ruth Bradford Reed, former members of the cult, against him for seduction and other offenses. Farnell, who was brought to court on a stretcher, lay perfectly still with his eyes closed and his face expressionless as the girls testified. He was released from \$40,000 on each charge to \$20,000 on each charge. He was immediately arraigned.

TO GIVE BAUER POWER TO ELIMINATE WASTE

Authority to "eliminate waste, extravagance and inefficiency" in all departments of the city of Lynn will be given to Mayor Ralph R. Bauer, Jr., by a bill introduced today at the State House on petition of the State House and signed into law. The Mayor would be given the right to examine the expenditures of all departments and to eliminate any expenditures he considers wasteful. He could also require any department to secure his written approval before continuing further expenditures and could remove inefficient employees. A referendum to the voters is attached to the bill.

Grew Rich Fast

Senator Couzens

He put \$900 into a company to build Tin Lizzy and in 13 years sold his interest for \$29,000,000.

CUTTING NIGHT RATE ASKED

Continued from Page 5.

Consumers Mr. Fisher was president of Worcester, who said he represented Mayor Michael J. O'Flaherty, who desired to intervene and join the petitioners. After considerable discussion, the utility commission agreed to permit Attorney McLaughlin to file an independent petition.

"We have no desire to impair the progress of the company, but we believe the dividends paid to stockholders are excessive and that the consumers should share in the profits of the company as well," said Attorney McLaughlin.

"In the forty-two years of its existence the shareholders paid into the treasury of this company for their stock \$4,083,232.

"In the comparatively few years since 1919 they have taken out in dividends \$4,420,948.88, or over 100 per cent more than the money ever put in."

"Every year since 1918 the company has declared 'extra' dividends ranging from 1 per cent on up to 20 per cent. Last year, while the 'extra' dividends rose steadily until last year when they were made twice the previous rates."

TAKES HIM FIVE YEARS TO SECURE \$1,900 AWARD

Nearly five years after he was injured in an automobile accident, Thomas North of Needham has today awarded \$1,900 by a jury in Norfolk County Court in Dedham. The award resulted from a suit against the owner of the automobile, Julia A. Reed, of Boston. Judge McLaughlin presided at the trial.

A good word was a friend in need. In the case of Mrs. Reed, the word was "Claret." (Classification 100)

LOSS OF CAPE AND STATE

Boston today quickly dug itself out of the snow which brought death to one person and serious injury to three others as it swept over New England before passing on to spend its fury over the Ohio Atlantic.

Warmer weather is coming, according to the weather forecasters. It is due to reach the city tomorrow, with fair weather prevailing in the meantime. Incalculable property damage was reported and wire required were ruined to the Cape Cod area, hardest hit in this respect, to the north. Communication between several isolated towns and the outside world. Special crews of repairmen left by special train from the South Station to relieve a force that labored on the Cape all night. Miles of wires were downed and many poles snapped. Plymouth, without electric lights.

The storm remained right on the coast all the way up from Cape Cod to the north. It was a real war on the Cape and the State. The storm was particularly in New England.

LOST HIS LIFE

The one man who lost his life was Manfred C. Dow, who fell from the roof of the new building in Newburyport and was crushed beneath the wheels of the heavy car.

The city of Boston, regardless of the optimistic predictions of the city's engineers, had men and shovels all ready, and the workers managed to dig about 100 feet of snow from the street.

The elevated foot, had its men and shovels all ready, and the workers managed to dig about 100 feet of snow from the street.

The cost of the storm to the "City" General Manager Dana estimated at \$10,000.

FIRE HITS SIX HUDSON STORES

Hudson, Jan. 12 (R.A.).—Fire did thousands of dollars' worth of damage to Grey block, in the Hudson district, here this afternoon. The hotel store, where the fire started from undetermined origin, was destroyed and five other stores, damaged by fire, were also destroyed. The stores were: Hudson Hardware Company, and Charon Lumber.

Albert L. Plouffe, dry goods man, was recovering from injuries received in an automobile accident, when the fire broke out.

The block is the property of Zim, and was built in 1910 and was built only a few years ago.

'POACHED' INTO SHE CHARGED

Continued from Page 1.

Now talked on advice of counsel. "Mamma" is an ancestor for "Peaches."

Mrs. Brown accused at the state's bar in court yesterday. Browning's attorney said the millionaire "drugged into" his marriage with "Peaches."

"We are not gold-diggers," said Mrs. Brown spiritedly. "My daughter didn't marry Browning for his money, and furthermore she didn't propose to him. My girl is a good and distinguished young wife."

"Peaches" is getting through with her forthcoming suit for separation and is prepared to take the witness stand, much as she recoils from such an ordeal, her mother said.

HATES NOTORIETY

"All this publicity, this notoriety that is hovering about me and my daughter's detests," said Mrs. Brown. "I am naturally a retiring person. My romance wasn't a case of a young girl and a man at the dangerous age. Peaches wasn't the kind of a young flapper type. She was just a wholesome, winsome high school girl who was just met."

"To show how domesticated 'Peaches' is, Mrs. Brown escorted the reporter into her daughter's apartment and under it to see 'all the things Peaches made herself'."

"She would make a mighty good wife," commented Mrs. Brown. "I don't see how Browning makes me out the dreadful mother-in-law who broke up his home," said the 41-year-old Mrs. Brown. "This isn't true. I didn't interfere in any way with my daughter's telephone."

"I see Mr. Browning makes me out the dreadful mother-in-law who broke up his home," said the 41-year-old Mrs. Brown. "This isn't true. I didn't interfere in any way with my daughter's telephone."

"Guilty"

"DORIS, DON'T BE SO POSITIVE IN your accusation of Davis." Charles looked at his sister as he said this. "Those threats Davis made seem to prove to you he is guilty. I doubt it." "Doris, tell me what it was that Miller had against your father." "I'll tell you, Charles, surely, but it has no bearing on father's murder. Davis is the man who told me that night." "Tell me about Miller," Charles said.

Another Suspect

"FATHER HAD IT IN FOR MILLER. He told me he was going to do everything in his power to see that Miller wasn't elected. One evening at a final political rally when Miller got up to speak father stood up and interrupted him—challenged him to tell the truth about his last year in office. Father walked out of the place in triumph, leaving Miller alone with a hostile audience."

By Jean McDonough

"THE DAY AFTER THE ELECTION Miller came to father's office. He had been defeated in the election. He blamed father for his defeat. 'Remember, Alton,' he said, 'I'm going to make it hot for you when the time comes.'"

"FATHER TOLD ME THAT NIGHT that he had made another enemy." Charles seemed to be pondering over his story. "Whether you believe or not, Charles," I said, "I KNOW that it was Davis' voice I heard." (Continued tomorrow.)

CANADIAN RAIL CHINESE SEIZE U. S. PROPERTY

Montreal, Jan. 12 (A.P.)—A settlement of the vexed dispute between 35,000 maintenance of way men, members of railway unions employed by Canadian railways and the companies, was announced today by the Railway Association of Canada.

The settlement was effected on a basis of an increase of 3 cents an hour.

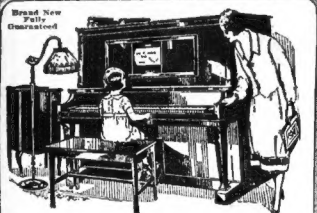

It was the first in a series of settlements to be your own home—the "Class" and the "Class" which will be of interest to you. (Continued tomorrow.)

SAYS JURY COST CITY \$35,946

In the Court street widening a jury awarded one property owner \$346 where the city could have settled for between \$20,000 and \$25,000, former Representative Elmer Adlow of Roxbury declared before the Boston Finance Commission today.

Adlow was appearing as spokesman for Mayor Nichols, and special legislative counsel for the city of Boston. In opposition to proposed changes in the law relating to taking of land by eminent domain procedure.

Chairman Charles L. Carr of the commission said the city would benefit if it street commissioners were compelled to give public hearings on such matters. Now, he charged, they sit down behind closed doors.

Chairman Carr advocated letting the courts handle a case after street commissioners had made an award. To this Adlow rejoined: "No matter how faulty their present system may be, no one can tell me that a jury is going to do a better job than the street commissioners and the law department. The unscrupulous will tamper as quietly with a jury as they will with a street commission."

TEACHER LEAVES MONEY TO HELP NEEDY STUDENTS

Springfield, Jan. 12 (A.P.)—The interest displayed by John A. Cullahan, long principal of the Highland grammar school in Holyoke, in assisting young people to obtain higher education, was evidenced in his will, filed here today. He leaves \$15,000 each to Mt. Holyoke, Smith and Amherst colleges and Worcester Polytechnic Institute, to assist students graduated from the Highland grammar school and the Holyoke High School.

Mr. Cullahan amassed a comfortable fortune through investment of his earnings in real estate.

GOV. RITCHIE HOST AT VICTORY DINNER

Annapolis, Md., Jan. 12 (A.P.)—Governor Albert C. Ritchie, who today will take the oath of office as a third consecutive term, was host at a "victory dinner" at the executive mansion to a score of nationally prominent Democrats. Except as a celebration of the Democratic victory in Maryland last Fall, Governor Ritchie declared the dinner was of no political significance. Senator Walsh of Massachusetts attended the dinner.

Whose hands touched it before yours?

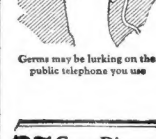

Germes, as well as dirt, removed from hands by this purifying toilet and bath soap

By shaking hands countless germs may be spread

Germes may be lurking on the public telephones you use

There isn't a better toilet soap made than Lifebuoy. Millions have discovered this for themselves. They prefer it for hands, for bath, for shampoo, for every toilet purpose.

They revel in its abundant, penetrating lather that removes dirt in a twinkling, that makes the skin delightfully soft and smooth, that destroys all perspiration odors instantly—and keeps them away all day.

27 Germ Diseases that hands may carry

LIFE EXTENSION INSTITUTE

- Colds
- Diphtheria
- Toxemia
- Scarlet Fever
- Mumps
- Chickpox
- Ringsworm
- Whooping Cough
- Septicemia
- Bubonic Plague
- Leprosy
- Typhoid
- Erysipelas
- Dysentery
- Measles

- Cholera
- Polio
- (See list on page 10)
- Intestinal
- Pharyngitis
- Tuberculosis
- Furunculosis
- Social
- Dysentery
- Cholera
- Measles

*The only Institute devoted to education in toilet and personal hygiene.

If a germ could talk, it would tell you that nothing pleases him more than to get a free ride from someone's soiled hands to some other person's mouth," says the United States Public Health Service Broadcast, No. 96.

Think of the many times each day your hands touch things that others may have left germinally.

Things you can't help but touch. Money, car-traps, door-knobs, banisters, packages, public telephones—all these, and many more, may transmit germs to the hands.

That's why health authorities say hands are among the greatest carriers of sickness. See below, list of 27 germ diseases hands may spread.

You wash your hands, of course. But "even if your hands look clean, they may be covered with germs," says the Metropolitan Life Insurance Company.

For greater safety—wash hands at all times with the purifying toilet soap that removes germs, as well as dirt.

Benefits the skin, too

There isn't a better toilet soap made than Lifebuoy. Millions have discovered this for themselves. They prefer it for hands, for bath, for shampoo, for every toilet purpose.

They revel in its abundant, penetrating lather that removes dirt in a twinkling, that makes the skin delightfully soft and smooth, that destroys all perspiration odors instantly—and keeps them away all day.

Added safety—free

You wash and bathe with some soap anyway. So why not use Lifebuoy, which costs no more—probably less—than the soap you are now using? The protection it gives you is actually free!

You can get Lifebuoy wherever soap is sold. You will know it by the red box and the cake—orange-red, the color of its pure palm-fruit oils.

Lever Bros. Co., Cambridge, Mass.

And best of all, Lifebuoy helps safeguard health. Its antiseptic lather removes germs, as well as dirt.

Greater protection—its hygienic scent tells you why

Lifebuoy is so different from other toilet and bath soaps that even its scent is different.

Not a perfume, but a clean, pleasantly hygienic scent which proves Lifebuoy gives greater protection. Even before you've finished your first cake, you'll learn to love this cleanest of all soap scents, which quickly evaporates after rinsing.

Without its antiseptic, Lifebuoy would still be a wonderful toilet soap—but it wouldn't give you the same measure of protection.

Like millions of others, once you form the Lifebuoy habit, you'll wonder how any other soap ever satisfied you.

For Greater Safety MILLIONS now turning to Lifebuoy

Lifebuoy has long been used by millions upon millions of people the world over—and now, as never before, new millions are changing to this famous toilet soap that removes germs, as well as dirt.

ASK REPEAL OF COMPULSORY INSURANCE

Repeal of the compulsory State automobile insurance law which went into effect on January 1, and the reversion of a State automobile fund is urged in a petition filed today at the State House by Arthur C. Hart of Newton.

Under the compensation fund law, owners of motor vehicles, at the time of registration, would pay a premium of \$12 for passenger cars and \$25 for trucks the first year. The premium would go into the fund to compensate for injuries.

The schedule of compensation would be: For death \$100 for each year of age of the victim at the time of death, but not more than \$1000; for total incapacity, \$4 a day for adults and \$2 for children, but not more than \$5000; for permanent total incapacity, a death benefit up to \$10,000 in addition to temporary compensation.

FIRE DESTROYS FALL RIVER THEATRE

Fall River, Jan. 12.—Two firemen were injured and a third was overcome by smoke today in a \$125,000 fire that swept the Empire Theatre, the city's largest and newest vaudeville and motion picture house in the heart of the business section.

The fire broke out at 10:15 p.m. The injured firemen were Joseph C. and James McCabe of hose 2, who were struck by a section of a falling balcony. Fireman James Donnelly of truck 1 was overcome by smoke.

All were able to return to duty. A crowd of about 100 people gathered in the street in front of the theatre in the vicinity of the fire. Only nine occupy the building, and although they were ready to leave, they did not have to do so.

The blaze, police believe, started on a balcony stairway under the projection booth and was probably raging for several hours before being discovered. First intimation of the fire came from the sprinkler system "crawls" and sounded an automatic alarm.

When firemen reached the scene the entire auditorium was in flames and Fire Chief Jeremiah Sullivan ordered a second alarm.

As the fire raged above them,

Ramsey, Allowed to Live Apart From Wife for Cause

William H. Ramsey of Putnam avenue, Cambridge, is living apart from his wife, Mrs. Louise H. Ramsey, for justifiable cause. Judge Chamberlain ruled today in Middlesex Probate Court, granting Ramsey's petition for such a decree.

It was in the Ramsey case, two weeks ago, when Mrs. Ramsey produced a letter written to her husband by Mrs. "Irene" Dahl, mistress of Ramsey, that Judge Chamberlain ruled that "Irene and Ramsey" expressed in a letter may be untrue, but not improper.

Ramsey charged his wife had been indicted with Carl Savare, married man of Cambridge.

3 MONTHS AND \$160 FINE FOR POLICEMAN

Two fines, totalling \$160, and a sentence of three months in the House of Correction, were imposed today in Roxbury Court on Louis H. Murray, suspended policeman attached to the East Dedman street division.

The suspended policeman was found guilty of drunkenness, for which he was fined \$10.

On a charge of operating an automobile while under the influence of liquor, he was found guilty, and was fined \$150.

The three months' sentence was imposed when he was found guilty of operating an automobile in a manner that might endanger the lives and safety of the public.

Three charges of going away from the scene of an accident without making himself known, were dismissed.

When the fines and sentence had been imposed, John P. Pearce, counsel for Murray, asked that the case be continued until next Friday, when it is expected that they will either be accepted or appealed.

Murray was arrested following a ride in an automobile taken by some man alleged to have been by policeman through South End and Roxbury streets.

BAY STATE CHARGES OF STARS SET FOR SWIM

Odds of 10 to 1 That None Will Succeed in Catalina Channel Marathon

By STEPHEN CHANDLER
NOT since Gertrude Ederle of Madison avenue strode triumphantly from the swirling spindrift of the English Channel, and dispelled once and for all the bogaboo of fear which had shrouded its very name, has a stretch of water assumed such proportions as does the Catalina Channel this Saturday.

It is in a different setting, but the story is the same. It seems a far cry from the spindrift of the English Channel, but the odds are 10 to 1 that none of the 14 swimmers who are to attempt the Catalina Channel will succeed. The odds are 10 to 1 that none of the 14 swimmers who are to attempt the Catalina Channel will succeed.

It is in a different setting, but the story is the same. It seems a far cry from the spindrift of the English Channel, but the odds are 10 to 1 that none of the 14 swimmers who are to attempt the Catalina Channel will succeed.

Modern Alchemists Hope to Get Gold From Ocean

THE WORLD'S GREATEST distance swimmers will dive off the shores of Catalina Saturday and try to trudge the twenty-four miles to the coast of Los Angeles. The Wrigley Water Marathon is the world's greatest swim event. The winner will get \$25,000. \$15,000 will be divided among the next three to finish. Odds are 10 to 1 that nobody will make the trip. The swimmers laugh at that. The first fifty strokes are the toughest, they say. After that it's a matter of endurance.

There are three local entries—Henry Sullivan of Lowell, Charlie Toth of Boston and Louis Timson of Lynn. Sullivan and Toth were the first two Americans to paddle across the English Channel. The Pacific waters look soft to them.

PLAYERS NOT PRESENT.
None of the several players were present at the Catalina Channel swim.

CLARABELLE BARRETT

May 26 Set by Rickard for Dempsey Comeback

By DAVIS J. WALSH
NEW YORK, Jan. 12.—Jack Dempsey's mooted comeback, if, when or at all, has been set tentatively by Tex Rickard for the night of Thursday, May 26, at the Yankee Stadium according to skeletonized plans said to have been outlined the promoter in a long-distance conversation with Dempsey two days ago.

Dempsey's opponent will be any one of five men: Jack Sharkey, Jimmy Watson, Jack Collins, Paul Berenski, and the winner will qualify for a "title" fight for the title shot with Gene Tunney in September.

Two days ago, Dempsey will be named for the fight with one of the five men. The fight will be held at the Yankee Stadium on Thursday, May 26.

In the early years of your married life you enjoyed thinking about the time when you would own a home of your own, with trees and a large green lawn surrounding it.

Perhaps the dream has come true, but your interest has waned since you have found out that it takes considerable time and expense to keep it in proper condition.

In Summer you complain at the large space you must mow, the fewer you must care for, and the hand-trimming you must do around the edges that you once thought were such an improvement.

In Winter you complain of the quantity of snow and coal that you must shovel and the backache you get after it is done.

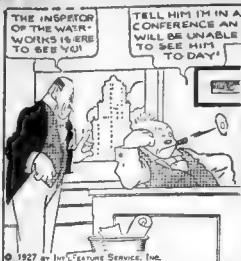

In short, instead of being happy and thankful that God has blessed your efforts at becoming a substantial citizen you are very much displeased.

The more property you own, the more you grumble about work and taxes and responsibilities.

But isn't it worth all you have put into it?
Would you go back to the little flat?

TURN ABOUT IS FAIR PLAY

By Ruth Logan

[illegible]

"Thank the truth to Miss Kendall released unchanged, but Henry's words lingered in her brain. "I have called you in to say that we do not like to have our girls come to school with you. You must do better," admitted Gadge. "Is there illness in your home, Miss Kendall?" "Could we have come in on the day?" "Yes." "What will be that pass tomorrow? What reason can you give for remaining out over-time at lunch?" "I—we—somewhere. I mean I have to go to school. I mean I have to go to school." "With whom do you lunch?" "Some friends. I mean I have to go to school." "Remember that Henry's car is in the lot." "I—late." "Is there illness in your home, Miss Kendall?" "What do you expect me to say in answer to that?" "I don't know."

THE MEDITATIONS OF A WIFE

By HELEN ROWLAND

NO man can understand why a woman should expect him to take her seriously when she says that she doesn't want to be kissed. Before marriage, if a woman fails to finish a sentence a man is curious—after marriage he is merely relieved. A man can't prove anything to a woman by the clock, the calendar or the thermometer, as long as her "premonitions" her "intuitions" and her "hunches" are in good working condition. A man who is about to be hanged may eat a good square meal. But you can't persuade a man who is about to be married to take any interest in the things of this world until the agony is over. Men are like cats in a lot of ways—only, when a cat gets over the freshness of youth, it settles down and becomes dignified. It doesn't start trying to be rough and sportive all over again in its late Indian Summer. Copyright, 1927, King Features Synd., Inc.

VERY EFFECTIVE FOR RHEUMATISM

Cities nearly everywhere are represented in letters from those who claim they have been freed from rheumatism by tablets called Weldon's. These are the tablets endorsed in the book—of which two million copies were distributed in the drive to conquer rheumatism. All forms of rheumatism such as sciatica, muscular and the most common type, rheumatism of the joints, are mentioned, and one can hardly credit the astonishing reports of quick relief by these tablets. Weldon's tablets may be obtained from drug stores.

Childhood (held open) at the stove today. LAURA M. RACICUT, No. 159 Sherman street, North Cambridge.

COLDS THAT DEVELOP INTO PNEUMONIA

Perishable coughs and colds lead to serious bronchitis. You can stop them now with Creomulsion, an acidified cream that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and inflames the inflamed membranes and inhibits germ growth. Of all known drugs, creomulsion is recognized by high medical authorities as one of the greatest healing agencies for post-cold coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and infection while the creosote goes on to the throat, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is a guaranteed satisfactory. The treatment of post-cold coughs and other throat troubles, from a cold or influenza, is the best for building up a resistance against colds. Put it on the shelf if any cough or cold is not relieved after taking a few doses of creosote. Ask your druggist.

Child Gets Sick, Cross, Feverish if Constipated

Look at tongue! Then give fruity laxative for stomach, bowels "California Fig Syrup" can't harm children and they love it. Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once. Ailing babies are pale, feverish, full of cold, breath bad, throat sore, don't eat, sleep or get naturally happy. Nothing cleanses "California Fig Syrup" for children's bile; give it frequently, still in a few hours all the foul waste, sour bile and gas are out and your child is as happy as a pig in clover. Pleasant food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this business, delicious, "fruit" laxative, and it never fails to effect a good "inside cleaning." Directions for babies, children of all ages and grown-ups are plainly on the bottle. Get it handy in your home. A little even today saves a whole tomorrow, but get the one you drag out for a belt Florida Fig Syrup. The only one it is made. Write to the California Fig Syrup Company.

Air Service Needs

Money and a Department All Its Own Should Be Provided

Once the country was safe when defended by a strong navy from attack coming over the Atlantic or Pacific Oceans. Due to perfection of the airplane and airship, we are now open to attack coming from a totally new direction, the ocean of the air.

The people see the danger clearly enough. They see the airplane doubled in efficiency since Captain Alcock flew across the Atlantic without stop seven years ago. They know that two years ago the ship "Los Angeles" flew five thousand miles without stopping, from the Zeppelin factory in Friedrichshafen to Lakehurst, New Jersey.

The terrible and increasing efficiency of aircraft for long distance destruction is apparent to all but the Government at Washington.

Down there we have the elderly over-loads of Army and Navy underestimating the power of aircraft, because it is something they do not understand.

On the other hand, we have the Budget Director, in his drive for economy, slicing Congress' small program of airplane construction. Under the appropriations he recommends, it will take ten years to build the planes instead of five years as Congress intended.

We shall not have an air defense so long as the Air Service is nothing but a subordinate bureau in the Army and the Navy.

We need in the Cabinet a separate Secretary for Air, head of a new Air Service Department, equally important with the War Department or the Navy Department. Or, perhaps better, a single Secretary of National Defense, with Under-Secretaries for Navy, Air and Army.

England, France and Japan each has a separate Air Department.

Suppose we had no Navy Department. Suppose the Navy were in charge of an Assistant Secretary in the War Department, who would present the needs of the Navy to the country and to Congress. We wouldn't have much of a Navy.

And we won't have much of an Air Service so long as it remains in charge of an Assistant Secretary in the War Department and an Assistant Secretary in the Navy Department, no matter how able those gentlemen may be.

Where Queen Marie Lives

Her Country Is Bigger Than It Used to Be

This is Rumania, home of Queen Marie. The light-shaded part shows old Rumania before the war, the black part shows what Rumania gained in territory after the big war.

You have read much about Queen Marie, have seen many pictures of her, and you might like to know what sort of a country she inhabits. Here it is. It is a good deal of a country now, since war added new territory to old Rumania. Seventeen millions make up the population.

Looking at this little map you see Rumania has some interesting neighbors: on the northeast, RUSSIA, one neighbor that she would gladly do without. The Russian bear has his eye on Rumania and other Balkan territory.

You will notice on the southeast the Black Sea, which really belongs to Russia, although other countries border on it. Some time if Russia establishes a firm government, with such a man as Peter the Great to lead it, the pent up power of Bolshevism will burst out of that Black Sea through the Dardanelles into the Mediterranean, and there will be some new chapters written in history.

South of Rumania is Bulgaria, in the old days called Thrace. Those mountainous regions, long before Homer was born, sent down to Greece the blue-eyed Celts that gave gray eyes and genius to the Greek race.

Up there in Thrace was born the mother of Themistocles, and many another that contributed to the greatness of ancient Greece.

Countries like Rumania, Bulgaria, Jug-Slavia, Hungary, Poland, Czechoslovakia, change and shift like the bright specks of dust in the sun's rays.

Queen Marie—you feel as though you know her intimately of course—has for grandmother Queen Victoria of England, and for first cousin the present King of England. Another of her cousins is the former German Kaiser. One of her grandfathers was the Czar Alexander Second of Russia, the other was the German Prince Albert who married Queen Victoria and became Prince Consort.

Her husband is a Hohenzollern, as was the gentleman recently King of Greece. And of her three daughters living, one is a queen, one an ex-queen, and the youngest with her, Ileana, of whom Queen Marie speaks with deepest affection, is soon to marry royally.

This little map shows you where they live when they are at home, in the City of Bucharest, down near the mighty Danube.

Some day if you have time, take a boat at Vienna, sail down the Danube to Budapest, and so on down through some of the most interesting and ever changing parts of old Europe.

Brass Band Meets Cow

The whole town of Camden, Maine, turned out recently with a brass band to bid good-bye to a cow.

"Brownie," called "The Wonder Ayrshire," holds the town's record of 18,666 quarts of milk in one year.

When she started off on a 10,000-mile exhibition tour the townspeople came out to show their esteem.

Anyone who makes good in a big way gets the respect of the community, even if it is only a cow.

LET HIM STUB HIS OWN TOES

By DR. FRANK CRANE

ONE of the unpopular elements about being highly moral and good is that we try to make other people be good.

Nobody objects to a man's being as righteous as he would like to be; they object when that man tries to make others righteous.

There is one thing dearer to the human soul than doing right; it is doing as it pleases.

Regulating people and telling them not to do things may gratify our own vanity and secure immediate obedience, but it is a poor way to improve people.

If you bring up little Willie according to all the rules of child breeding, if you keep him always carefully removed from temptation and preserve him, as it were, in gyron until he is twenty-one and then turn him loose, he will probably fall before some goo-goo-eyed charmer before he has gone around the block.

He has everything except the one thing useful, and that, as a California instructor phrases it, is visceral stamina, if you get what I mean.

The surest way to learn and to grow in this world is to make your own mistakes and suffer the penalty of them. Only when we have erred and suffered for it do we learn thoroughly not to err.

The trouble with correcting people is that it is liable to destroy more than it builds up.

The constant habit of criticizing and fault finding is fatal to love. If, therefore, you value the affection of anyone it is always best to treat him with appreciation, not criticism.

The only sure road to righteous conduct is to grow a force within ourselves that shall make us righteous. A force superimposed upon us by someone else is only temporarily effective.

Let people stub their own toes, burn their own fingers, and bump their own noses. More is lost than is gained by too much regulation.

(Copyright, 1927, by the McClure Newspaper Syndicate.)

What Do You Know?

No matter what your particular specialty may be, you should have enough general information to enable you to answer these questions. Complete these familiar quotations:

- "A man is as much of a cheater ———— Wordsworth.
- "We are such stuff ———— Shakespeare.
- "As dreams are made of, and our little life is rounded with a ———— Shakespeare.
- "I don't doubt not through the ages one increasing ———— runs ———— Tennyson.

Match the following:

- Harpers Ferry
- Lake George
- Pike's Peak
- Woonsocket
- Copenhagen
- Rhode Island
- Denmark
- Colorado
- Virginia
- New York

In what year did these events occur? 1. American League founded. 10. Hudson River discovered. 11. Connecticut Charter granted. 12. Burr killed Hamilton in a duel. 13. Italian goldsmith. 14. American actor. 15. Character in "Romeo and Juliet." 16. American aviator. 17. Lawrence—William O'Brien—Dan Curran—Benvenuto Cellini. 18. American poet. 19. French general. 20. Passion skin. 21. Characteristic. 22. 1794. 23. Canada. 24. Constitution. 25. person. 26. saint. 27. Brooklyn. 28. character. 29. Lake. 30. 1816. 31. 1896. 32. 1896.

Odds and Ends of the Town

By WILLIAM F. SHINE, one of the new aidmen in Medford, and commander of MEDFORD POST OF VETERANS OF FOREIGN WARS.

Not only believe in getting things for the people but in going the limit to make them enjoy them. When the youngsters of Ward 3 wanted a field flooded, ALDERMAN SHINE also arranged a series of races on the ice and acted as judge of events. So well patronized were the races that he will run them each week for the youngsters, weather permitting.

ALDEN P. CHESTER, newly elected president of the NEW COMMON COUNCIL, was called to attend the first session of the body. He arranged his committee appointments and then, as read by the clerk of the Council.

REGAINING HEALTH. CRUISE JUSTICE CHARLES M. BRUCE OF THE MALDEN DISTRICT COURT is steadily regaining his health at his MALDEN home. ALDERMAN BRUCE underwent an operation last spring and has been much time in the hospital. He expects and is able to resume his seat on the bench in about another month.

FULL HOUSE. THE NORFOLK COUNTY JAIL at Dedham is now housing 107 prisoners, the largest number of inmates ever confined at the institution. The average number of prisoners during the last year has been the highest in the fifty years of SHERIFF SAMUEL H. CAPON'S career in office.

THILLS. "Shooting the Chutes" was the big attraction a few years ago on the land close to the site of the YOUNG MEN'S CHRISTIAN ASSOCIATION on HUNTINGTON AVENUE. But his and his wife's parents, the place and got a kick out of life. Ask some of the old-timers in Roxbury and you will find they will tell you they caused their parents to land and were riding down the toboggan to the water.

LANGUISH. JULIUS HOGGMAN, vice-president of the INTERNATIONAL LADIES GARMENT WORKERS' UNION, spoke warmly of his country. His oratory has done more to commend the place and its people to the workers in BOSTON than anything else. He knows how to handle crowds because of the training he received in psychology. His ability in persuasion, his turbulent meetings makes him a leader to be reckoned with. He is due to Boston shortly.

COLLECTOR. K. A. EVERSON OF SOUTH HANOVER has what he believes to be the largest private collection of Indian arrowheads in the United States. MR. EVERSON has traveled extensively in the past, and has collected by whatever he visited. In addition to the arrowheads, he has a wonderful collection of shells from all parts of the world. He is a collector of rattlesnake skins, including one that is seven feet long.

When our vice leave us, we flatter ourselves with the notion that it is we who leave them. —La Rochefoucauld.

It is only to the happy that tears are a luxury. —More.

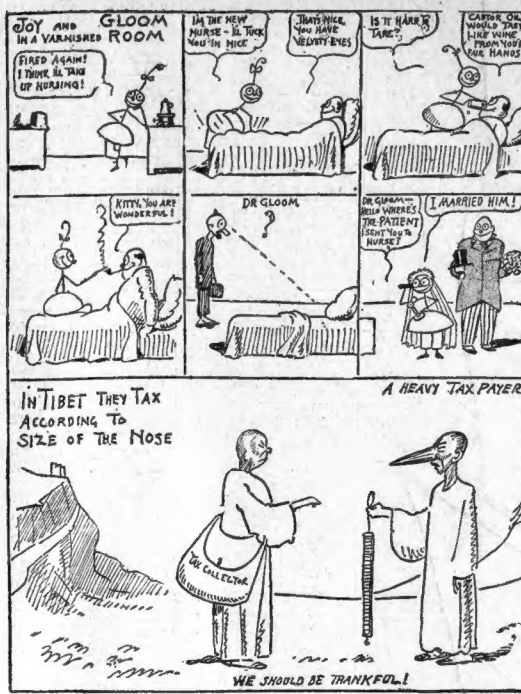

What is vulgar, and the essence of all vulgarity, but the avowal of reward? —Emerson.

Those who apply themselves too much to little things usually become incapable of great things. —La Rochefoucauld.

Be in general virtuous, and you will be happy. —Benjamin Franklin.

From the sublime there is a descent little by little to the ridiculous. —Longinus.

Temperance is a bride of gold. —Purton.

LISTEN, WORLD!

By ELSIE ROBINSON

PARALYSIS. "I've heard that name. It hasn't meant anything to her then—just a name. It was more than a name now. The terror of it—"

A heavy, limp terror that lay over everything—strangling her breath, blinding her eyes, quivering her heart till the blood came in slow, icy drops.

Limp—like his gray limp of a body in which only the eyes moved now. Slow, dreadful pendulum of eyes trapped in a withered chest, that followed her over the low, little bulwarks of his paralyzed chest, their dream and their terror, their struggles and their sacrifice, their dream and their terror, their sweat and tears and blood.

So you are "a decent woman." That's a large word—decency. Countless generations of men have bought that word at a very great price. They have bought it at the price of their love and courage and their dream and their sacrifice, their sweat and tears and blood.

So you are "a decent woman." That's a large word—decency. Countless generations of men have bought that word at a very great price. They have bought it at the price of their love and courage and their dream and their sacrifice, their sweat and tears and blood.

Man's Lower Relatives

By GARRETT P. SERVICES, Nosed Anatomist and Writer of Scientific Topics of Popular Interest.

FACTS are the high explosives of controversy. Professor C. E. McClure of the University of Pennsylvania incidentally fired a very effective shell of the fact and in a recent address on the "Only of Life." The hole it makes in the evolutionary line is visible without a field-glass.

Everybody by now knows that the unfortunate members of the human family called "relatives" have fallen into their pitiable condition through insufficient action of the thyroid gland. "Only of Life." The hole it makes in the evolutionary line is visible without a field-glass.

In such cases, growth is disturbed and hindered. "Only of Life." The hole it makes in the evolutionary line is visible without a field-glass.

Everybody by now knows that the unfortunate members of the human family called "relatives" have fallen into their pitiable condition through insufficient action of the thyroid gland. "Only of Life." The hole it makes in the evolutionary line is visible without a field-glass.
